MOVE-IN 2024

One Bear Mountain is where masterful architecture, modern residences and an unparalleled 26,000 square feet of amenities converge to create a best-in-class property.

The ultimate recreational lifestyle awaits with two Nicklaus designed golf courses, miles of hiking/biking trails and Canada's largest indoor/outdoor red clay tennis centre.

The cost of construction continues to increase. This is the last opportunity to own a home at an iconic development like One Bear Mountain at these prices. Need we say more?

The developer reserves the right to cancel this program at any time.
